

See us at InstallerSHOW 2024

[InstallerSHOW](#) is the UK's number one destination for influential specifiers and decision-makers working across the heat, water, air and energy sectors. It is THE place to see and try new product innovations, meet your peers, make connections with manufacturers and gain industry insights to keep your business ahead of the curve.

Returning to the NEC from June 25th-27th, this year's event will be bigger and better than ever – with 600+ exhibitors set to welcome 20,000 industry professionals. The 2024 show will feature an expanded offering for visitors, with the usual focus on net zero solutions alongside brand-new feature areas including [Installer Kitchens & Bathrooms](#), [InstallerRoofing](#) and [InstallerTRADES](#) with a tool demo zone and a workwear catwalk.

We'll be exhibiting at the event, visit us on stand **4M20** to meet the team and learn more about how our solutions can help you.

Registration for InstallerSHOW is open, go here to register for your free visitor pass, with free parking:
