

See us at NMBS Trade Exhibition 2024

The **NMBS Trade Exhibition** is the UK's number one annual destination for independent merchants and decision-makers working across the heat, water, air and energy sectors. It is **THE** place to see and try new product innovations, meet your peers, make connections with manufacturers and gain industry insights to keep your business ahead of the curve.

Held at the **Coventry Building Society Arena** from **April 10th-11th**, this year's event will be bigger and better than ever – with **hundreds of exhibitors** set to welcome thousands of industry professionals. The 2024 show will feature an expanded offering for visitors, with a clear focus on net zero solutions alongside brand-new feature areas as well to surprise clients.

We'll be exhibiting at the event, visit us in the **Main Corridor** where you will find our stand and then you can meet the team and learn more about how our press solutions can help you...

NMBS Trade Exhibition website is now open, so go here to find out more details about this fabulous event and market education. <https://www.nmbs-exhibition.co.uk>
